March 19, 2018

Dear Neighbor,

In an effort to share information and gather community input, PNM will hold a neighborhood open house meeting for the *BB2 345kV Electric Transmission Project*. The alignment for the project in Santa Fe County is on the reverse side of this letter.

A wind farm developer, Avangrid Renewables, LLC, has signed an agreement with PNM to transmit electricity into the transmission grid that will be generated by their new wind development in Torrance County, New Mexico. PNM is required by the Federal Energy Regulatory Commission (FERC) to develop the ability to connect to the PNM transmission system for this wind farm. In order to connect the new wind development, the *BB2 345kV Electric Transmission Project* is needed.

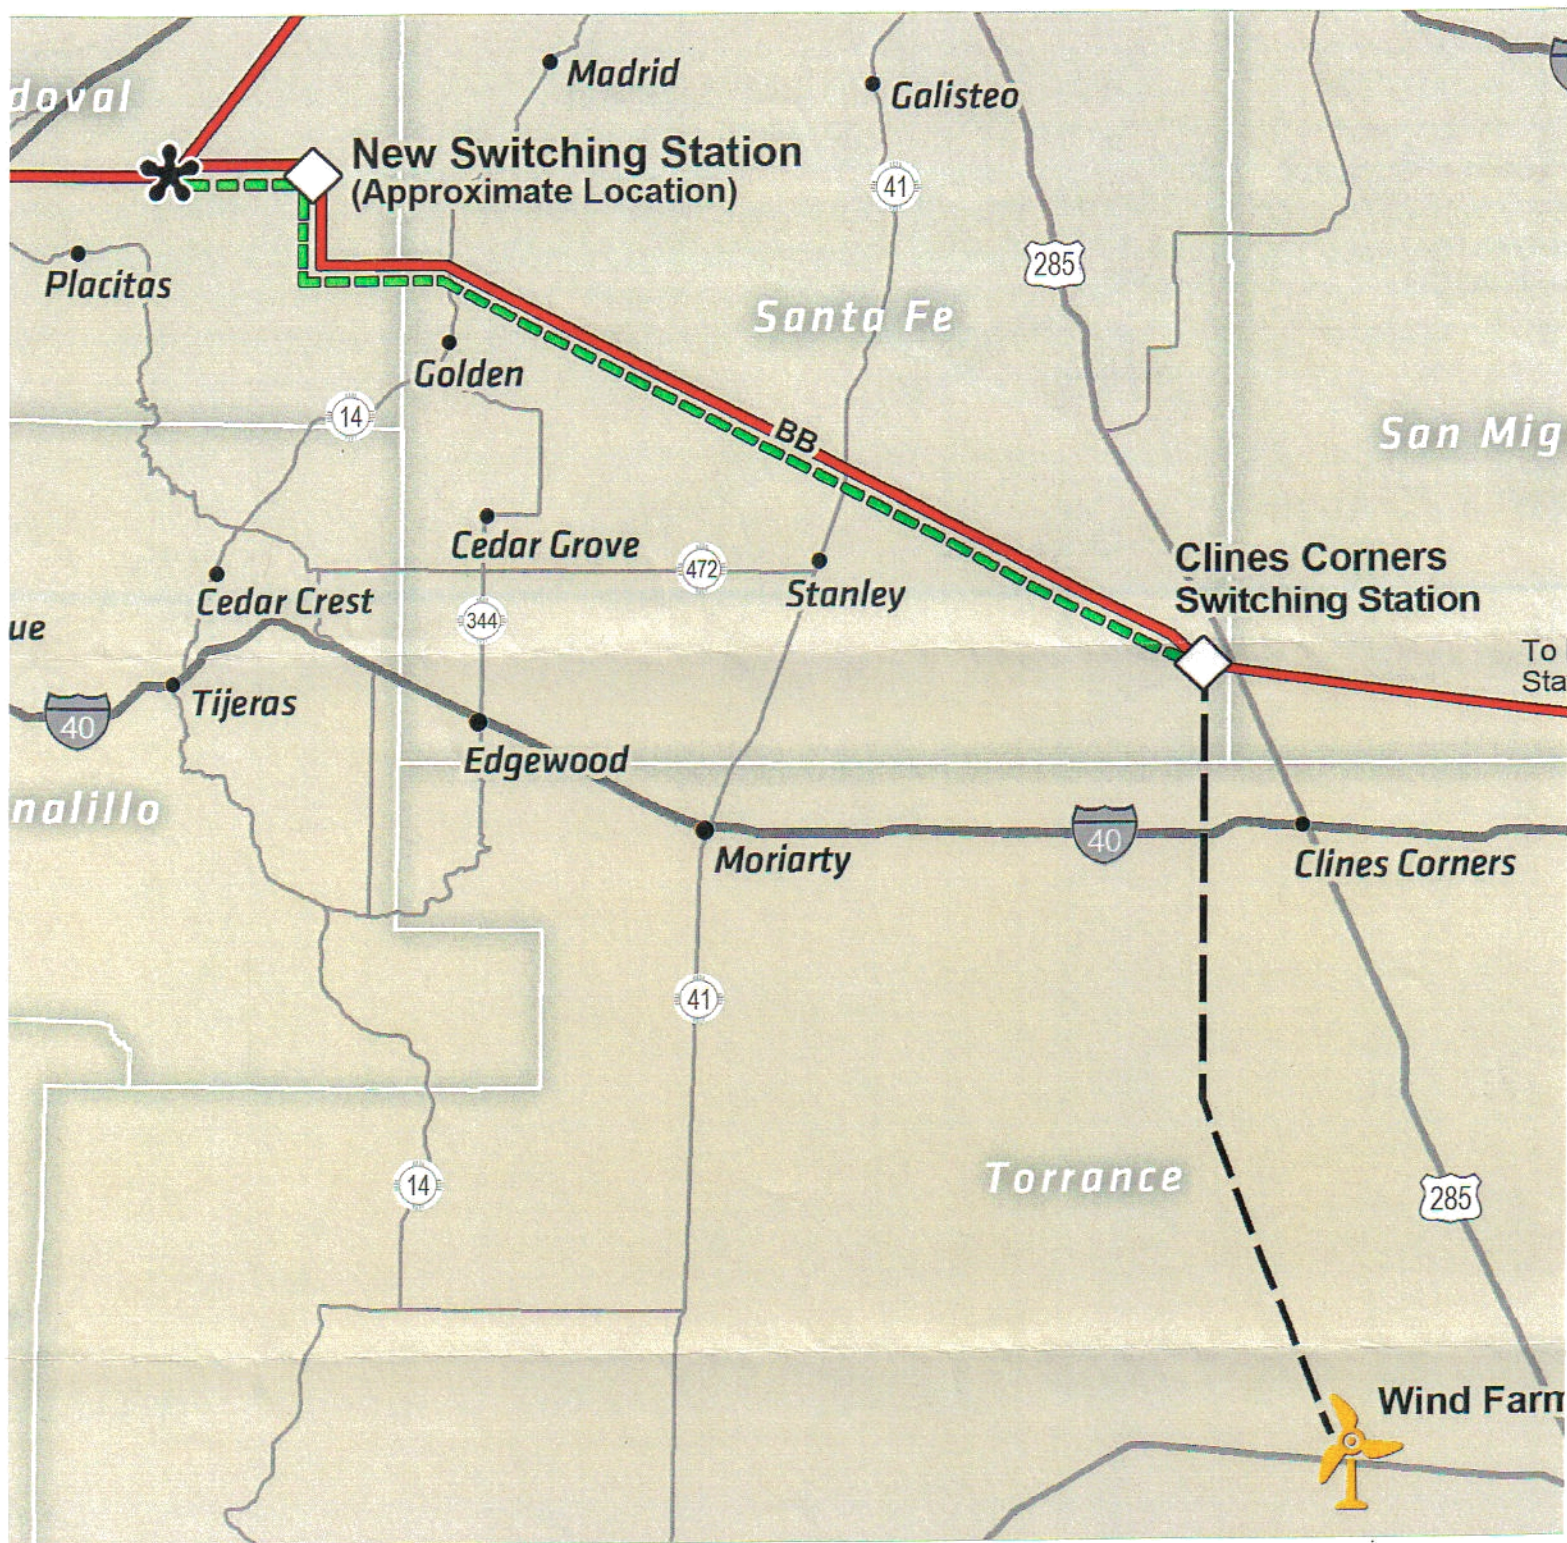

PNM will conduct an informational neighborhood open house on April 4, 2018 from 5:00 p.m. until 7:00 p.m. at the Moriarty Civic Center, located at 202 Broadway in Moriarty, NM; across from the Moriarty City Hall. The open house will give you an opportunity to view the project maps, provide input on the project and discuss the project with PNM representatives.

We value your input and look forward to your participation. If you have any questions, please contact me at (505) 241-2792.

Sincerely,

A handwritten signature in blue ink that reads "Laurie Moyer". The signature is fluid and cursive.

Laurie Moyer
Coordinator, Regulatory Project and Public Participation
